Installation instructions

**cold water
inlet** ¼ inches
inside screw

drain outlet

NOTE

- 1、 Install the cold water pipe,, drainpipe and 30A outlet, ventilator before fixing the capsule equipment.
- 2、 Connect the cold water pipe with ¼ inches inside screw, make sure there is no leakage.
- 3、 Add the essences or perfume before turning on the vapor so as not to be scalded(better in the morning).
- 4、 Ozone sterilization is slightly smelly,use it moderately(15 minutes before or after used).
- 5、 Be sure to install the overload protection power switch(40A~60A).
- 6、 Pregnant women and patients with high blood pressure, heart disease are not allowed to use it.

Brief introduction

This is a brand new design combined with health care, recuperation and body shaping. Fumigation with high temperature has curative effects on the spine, joints, stimulate the blood circulation and cause the muscles and joints to relax as well as relieve pain. With natural skin care stuff such as essence oil. milk , honey etc. it improves the dark. rough skin effectively. Both your skin and your health will benefit a lot from this equipment.

1、 steam heating

Stimulate the evaporation of different essences,smooth the energy channels, improve blood circulation.

2、 fragrance therapy

The vapor of different essences and Chinese herbs spreads all over your body evenly and effectively, relieving tiredness and treating the illness.

3、 Music therapy

MP3 player system makes you relaxed and refreshed physically and mentally.

4、 ozone system

Thoroughly cleansing the tiny pores, getting rid of toxic heavy metals through ozone sterilization.

5、 optical therapy

Relaxing human body, lessening spiritual pressure, improving the metabolism, shaping your figure.
